The dashboard page displays key financial metrics and performance trends. At the top, there are four main sections: Sales Orders (3,070.00), Invoices (14,157.89), Credit Note (300.01), and Collections (0.00). Below these are two growth comparison charts: MTD Growth (vs Q1) and YTD Growth (vs Q1). The MTD Growth chart shows a -9% decrease from the previous period. The YTD Growth chart shows a -96% decrease. The page also includes a Sales Summary table and a detailed breakdown of sales orders by distributor.

Dashboard Page

The Depositories page lists various warehouse locations. The table includes columns for Code, Description, Distributor, Type, Is Active, and Is Salvageable. The data shows several warehouses (BOK, BRW, BRWV, BRWV1, BRWV2, BRWV3, BRWV4, BRWV5, BRWV6, BRWV7, BRWV8, BRWV9) and vans (BRV1, BRV2, BRV3, BRV4, BRV5, BRV6, BRV7, BRV8, BRV9). The BRWV entries are highlighted with a yellow background. A modal window is open on the right side of the screen, showing options for View, QR Edit, and Delete.

# Stock Portfolio Manager

Stock trading portfolio tracker with investment management, performance analytics, DCA calculator, and rebalancing tools.

ReactJs

The dashboard provides a quick overview of the portfolio's current state. It shows a total portfolio value of \$503.80, total invested of \$484.34, and a total gain/loss of \$19.47 with a return of +4.02%. Below this, a table lists recent transactions for stocks like NVDA, META, MSFT, GOOGL, and TSM. A 'Portfolio Breakdown' section shows the current allocation across five stocks, and an 'Investment Summary' section provides a breakdown of total transactions, holdings, and the latest transaction.

Dashboard

The portfolios page allows users to manage multiple investment strategies. It features three main cards: 'WeBull-Individual-Stock' (Webull-individual Stock), 'ETF Portfolio' (ETF stocks focus), and 'STOCK Portfolio' (Default portfolio with existing holdings). Each card displays basic information such as holdings, currency, and edit/duplicate options.

**How to Use**

- Amount to Buy: The recommended dollar amount to invest in each stock
- Shares to Buy: The number of shares you can purchase with that amount
- New %: Your allocation percentage after making these purchases
- Status: Green = Balanced (±2%), Yellow = Watch (±2.5%), Red = Needs rebalancing (±5%)

**Quick Tips**

- The calculator distributes your DCA amount proportionally based on target allocations
- Stocks showing Red are significantly underweighted - consider increasing their allocation
- You can round share quantities to avoid fractional shares if your broker doesn't support them
- After purchasing, log your transactions in the DCA Log page to update your holdings

### N8N : AI Chat Bot Auditor

Automated Invoice & Credit Note Validation Specialist

The screenshot shows the N8N interface with a dark theme. On the left, there is a complex workflow diagram with various nodes like 'File Input', 'HTTP Request', 'Text', and 'File Output'. A central part of the interface features a live chat window where an AI is responding to user queries about document validation. The AI's responses are detailed and provide step-by-step instructions for validating invoices and credit notes.

### AI Market Intelligence: Gold & Macro

Automated analysis of gold trends and economic indicators, powered by Perplexity AI.

This screenshot displays the AI Market Intelligence workflow. It includes a complex flowchart with nodes for 'File Input', 'HTTP Request', and 'Text' processing. To the right, there is a detailed AI-generated market summary for gold trends and economic indicators. The summary includes sections like 'Executive Summary', 'Technical Analysis' (mentioning resistance levels at 3000-3200), and 'Fundamental Analysis' (mentioning USD/JPY support). It also provides trading recommendations and risk metrics.

### AI Chat Bot Workflow

This screenshot shows a simplified AI Chat Bot Workflow. It consists of a single node labeled 'Text' which contains a simple AI-generated response to a user query. The response is a single-line text message.

### AI Market Automation Workflow

This screenshot shows an AI Market Automation Workflow. It features a complex flowchart with multiple nodes for data input and processing. To the right, there is a detailed AI-generated market summary for gold trends and economic indicators, similar to the one in the previous screenshot, providing comprehensive analysis and trading insights.
